Over Four Sections Grass Burned

200 Volunteers Fight Prairie Fire At Lomond

Lomond Correspondent)
Lightning is believed to have been the cause of a grass fire which started at about 8:00 p.m., Sunday evening on the Lomond Community Lease, south of that village, and destroyed between four and five sections of grassland before it was finally extinguished.
The telephone operator in Lomond notified the radio and television stations in Lethbridge of the blaze and they broadcast an appeal for volunteers to help fight the blaze, with about 200 men from Travers, Enchant, Turin, Milo, Vauxhall, Vulcan, Champion and other points responding to the call and helping to fight the fire.
When the Lomond fire truck arrived on the scene at about 11:00 p.m., the fire was raging furiously, out of control, and was not brought under control and considered extinguished until 1:30 a.m. The truck had no sooner got back to Lomond at 2:00 a.m., when it and its crew were called back, as the fire had broken out again and was spreading rapidly, fanned by strong winds. The flames were not finally extinguished until 6:00 a.m. Monday morning, as the original large fire-fighting crew of men had all returned home when the fire was first considered out and it was only possible to contact a few for further fire-fighting work.

Fish & Game To Meet Aug. 29

The fall meeting of the Vulcan Fish & Game Association will be held in the Vulcan Legion Hall on Monday, Aug. 29, at 8:00 p.m.
This meeting will deal primarily with upland game birds and completes the first term of events since organization of the local. Entertainment for the evening will consist of a speaker from the Brooks Hatchery as well as films on Upland Birds. Door prize and lunch will round out the evening's entertainment.

For all those interested in competing for the various trophies the deadline for membership this year is Sept. 15. In connection with the pheasant trophy, the feathers must be plucked at the measuring station, as all birds are to be weighed so that in the event of a tie, the heaviest bird will win.

Keen interest is still being shown in the Fish Derby with some good catches being registered.

SERVICE BOARD NOTES

Norman Soder

In the Service Board Notes last week I stated that the Canada and Sow Thistle had not had a chance to get too well established in the County. However I find that we have places in the county where these weeds are not only well established but are doing a good job of taking over.

Some of us are of the opinion that there is no point in destroying these weeds on our land if our neighbors do not destroy theirs or if the weeds are not destroyed on the road allowances. This is a poor policy as the weed seeds that come in with the wind could have possibly travelled for miles. Also, according to Section 2(h) of the Noxious Weed Act, a farmer is responsible for all weeds to the centre of any road allowance, on road allowances that border land that he is farming or in charge of.

Road allowances and waste land are perfect spots for noxious weeds to grow. Any farmer who has weeds growing on road allowances bordering his land or on waste land, should spray the infected areas, just before or when the thistles are in the bud stage, with not less than 16 oz. per acre of 2,4-D. For proper control this treatment should be repeated on any new regrowth.

Applications for the regular winter courses are still being accepted by the Olds School of Agriculture

IN 1960, THERE WILL BE a six-day season on pronghorn antelope in Alberta. This season, open for both male and female antelope, will commence on Oct. 24 and terminate on Oct. 29.

The decision to open antelope hunting this year was handed down by the director of Fish and Wildlife after a review of the results of the mid-summer antelope aerial survey. These surveys, conducted each year, allow the assessment of pronghorn density by zones which is just one phase of an intensive management program designed to collect data on animal abundance, sex and age composition of the herds, productivity or rate of increase, causes of mortality, and hunter success and harvest by zones.

This year's aerial survey — the most intensive ever attempted — has shown marked increases in antelope numbers in all zones censused.

58 Ladies Compete In Vulcan Golf Tournament

A very successful Ladies' Invitational Golf Tournament was held at the Vulcan and Country Club on Thursday, Aug. 18, with a total of 58 of the fairer sex taking part in the one-day swing fest.

Top in the Ladies' Championship Flight was smooth-swinging Phyllis Cooke of Lethbridge Henderson Lake Golf Club, but only after two extra holes playoff with Thelma Haverly of the local club. Both ladies finished with an 85 score after their 18 holes of medal play.

Winner of the First Flight was Mary McKeage of Nanton with June Wellman taking the runner-up spot after a play-off with Bobby Jones of Lethbridge and Ruth Bassett of Claresholm.

Veda Boutland of the Vulcan club took the first prize in the second flight and Gail Walker also of Vulcan won the second spot after a playoff with Mary Ryan of Claresholm.

Francis Markle of Claresholm was alone at the top spot in the third flight but again a playoff was necessary to decide the runner-up and here Eileen Wright won out over Bernice Baehler, with both ladies members of the Vulcan club.

Fourth flight honors went to Edna Lind of Nanton with Pat Dennis of Turner Valley taking second prize after beating Kelly Stuart of Turner Valley and Elsie Wellman of Blackie in a playoff.

Vulcan ladies won both top spots in the fifth flight with Olga Miller topping Ivy Fox by two strokes. The sixth and final flight was won by Ellen Carlin of Claresholm with Rosemary Sawchuk of Turner Valley taking second spot and Yvonne Leavitt also of the Valley club getting a third prize in the final flight of ten.

Light Rains Hold Up Harvesting

Light rains Monday night and Tuesday of this week have held up harvesting operations. All districts report swathing well underway, with some combining of barley and wheat also reported.

Yields on land that was not hilled are surprisingly good considering the almost complete absence of rain in July, with early reports indicating that wheat on summer-fallowed land is yielding 20 to 25 bushels per acre. A wide variation in yield is reported in the eastern part of the county, depending on showers received during the growing season, but the average in the Lomond-Milo area is expected to be about 15 bushels per acre of wheat.

Feed crops have been light and many fields of hilled grain are being baled for feed.

Sixteen United States and Canadian airlines will co-operate in airlifting the 4,500 dealers and 1,500 other persons to Dallas within a 24-hour period. It will be the first time any manufacturer will utilize as many airlines, reserve as many accommodations, and arrange for as many meals for a single group at one time.

To accommodate the huge crowd, the Dallas Memorial Auditorium, the Texas State Fairgrounds and Cotton Bowl will be utilized for various parts of the meeting.

At the fairgrounds, the largest display on any one power equipment manufacturer's products ever to be exhibited at one place will be staged. More than 230 tractors and 270 pieces of equipment will be used in the display.

The dealers will stage their own public showings of the new tractors and equipment after they return to their home communities.

Partial Centralization Of Grade 12 At Vulcan

Vulcan County School Committee has announced that the fall school term will commence on Thursday, Sept. 1, 1960.

It is expected that the County will offer complete instruction from Grades I to XII at Lomond, Milo and Vulcan. Schools at Carmangay, Champion, Arrowwood, Mossleigh and Brant will offer Grades I to XI. Pupils from those areas where Grade XII is not being offered will be vanned into Vulcan where it is expected that there will be some 75 or 80 Grade XII students. Parents who feel that their children live too far away from Vulcan to attend the Grade XII classes will be given assistance of \$1.00 per day in lieu of transportation for every day the pupil attends school in another district, plus tuition fees at not more than \$10.00 per month. It is stated by the Chairman of the Committee that these changes in the school system are made necessary owing to the very severe shortage of competent high school staff.

It is hoped that this arrangement will be of benefit to the Grade XII students who should have a greater opportunity in a larger school with a number of teachers specializing in their work. In those schools where Grade XII is not being offered, it is hoped that this arrangement will also be beneficial as the teaching positions have been filled with adequate staff to provide excellent instruction to Grade XI.

French Pioneers Seeking Suitable Homestead Land
in the Foothills — About 1906.

A Salute to Alberta's Early French Adventurers

The spirit of adventure which early in its history brought French explorers and colonists to the new world had not dulled, even by the late 19th century; there was still Western Canada, unsettled and undeveloped, and there were French men and women ready to cross an ocean and travel more than half the breadth of the continent to answer its challenge.

Some of those who came to Alberta had been farmers in France, but many were drawn from the aristocracy, from professional groups and from officer ranks of the French army. Choosing their homesteads here, they favored particularly the foothills country about Millarville and the parkland areas at Trochu and Sylvan Lake, districts well suited to their interests of farming and ranching and the breeding of fine light horses.

Not all the French settlers remained to live out their days here; for some there were other challenges to settle still newer lands, and for many the outbreak of World War One meant a patriotic return to their homeland to fight in the trenches alongside other Allied troops. Today, the number of their descendants in Alberta is comparatively small, but the cultural and economic contribution of these venturesome French pioneers is a proud one!

WEATHER COMFORT

To keep the house cool during hot weather, close the windows and draw the shades on the sunny sides of the house, starting early in the morning before the temperature rises. After sunset, open the windows to admit the cool air and ventilate the house. Taking a hot bath will often leave a cooler feeling than a cold bath which tends to set up a warm glow.

But what it meant to lose you
No one will ever know.

After a great deal of discussion it was decided that a representative of the board visit each Grade 12 pupil's parents for their decision on whether to have Grade 12 taught in Mossleigh or have the pupils vanned to Vulcan.

Family Re-union

About 45 relatives of Mrs. A. B. Andrews of Parkland met at the High River park Sunday, Aug. 14, for a family re-union. After a picnic lunch at 2:30 p.m., the young people picked two teams and played a rousing game of soft ball.

Among those present was Mrs.

Andrews' brother-in-law, Tom Mowatt of High River. Also present were Mr. and Mrs. A. Nixon and family from Calgary; Mr. and Mrs. H. Andrews and family from Parkland; Mr. and Mrs. R. Hurl and family, Mossleigh; Mr. and Mrs. W. Campbell and family, Mossleigh; Mr. and Mrs. H. Hughes and Irwin, Vulcan; Mr. and Mrs. H. Mowat and family, Edmonton; Mr. and Mrs. N. Mowat and family, Parkland; Mr. and Mrs. J. Gelatly and family, High River; Mr. and Mrs. F. MacDonald and Leslie, Mossleigh.

Mrs. E. Campbell of Calgary, formerly of Mossleigh and Vulcan; Mr. and Mrs. K. Campbell of Calgary, formerly of High River, and Dr. and Mrs. G. Mowat were unable to be present due to illness.

4-H Grain Club Tour

The Mossleigh 4-H Grain Club held their annual plot tour on Sunday, Aug. 21, at 2:30 p.m. The members and a few parents met at the home of their leader, A. Hohn.

The group first visited the plot of Victor Gatenam, and from there they went to Barry and John Campbell's, Jim Samarodan's, Allan and Bob Hurl's, Tom Andros-off's, Janet Leslie's and Bill, Frank and Eric Hagedorn's. Donna Elliott and John and Leonard Robinson plots were 100% hailed out, so they were not toured. The members also have very attractive signs this year. The members have a very good showing inspite of the hail and drought.

After the tour, a few games of tennis were enjoyed while the mothers prepared a picnic supper on Hagedorn's lawn.

Plum Jam is a perennial favorite with adults and children alike—a wonderful stand-by in your preserves cupboard! Here's our very successful recipe.

PLUM JAM

4 1/2 cups prepared fruit (about 2 qts.

ripe plums)

7 1/2 cups (3 1/4 lbs.) sugar

1/2 bottle Certo fruit pectin

First, prepare the fruit. Pit (do not peel) about 2 quarts fully ripe plums. Cut in small pieces and chop. Add 1/2 cup water; bring to a boil and simmer, covered, 5 minutes. Measure 4 1/2 cups into a very large saucepan. (Sour clingstone plums give the best color and flavor. If sweet plums or freestone prune plums are used, substitute 1/2 cup lemon juice for 1/2 cup of the prepared fruit.)

Then make the jam. Add sugar to fruit in saucepan. Mix well. Place over high heat, bring to a full rolling boil, and boil hard 1 minute, stirring constantly. Remove from heat; stir in Certo at once. Skim off foam with metal spoon. Then stir and skim for 5 minutes to cool slightly, to prevent floating fruit. Ladle into glasses. Cover at once with 1/2 inch hot paraffin. Makes about 11 medium glasses.

Preserving Pointer: It's a good idea to temper all new glass jars before using in order to prevent breaking. Simply place the jars on a rack in a pan, cover with cold water, and then heat gradually to the boiling point.

If you have any problems with your jam and jelly making, we'll be glad to help in any way we can. Just drop us a line, General Foods Kitchens, 44 Eglinton Ave. W., Toronto.
